November 2, 1990

Dear Professor Atasoy,

I write to you as President of the International Friends of Side, a non-profit foundation, legally registered in Turkey and the United States, to request the use of our crane and the driver Akif Dogan for three weeks starting July 15th 1991.

You promised a year and a half ago to help us finish re-erecting the corner of the Apollo Temple, but this year that help was denied.

My husband thought he had given the crane to the International Friends of Side just before he died. But due to Turkish customs restrictions the only way it could be kept in Turkey was for the German construction company to "give" it to the Faculty you now head. My husband paid \$40,000.00 to the company to do so and no money was expended by the University.

I hope the three weeks will be enough to finish, but we might possibly need it one more the end of September. This will in no way interfere with its use at Perge.

As you know, Side attracts many tourists and the Apollo Temple has become another jewel in its crown. Please honor this request as soon as possible as we want to make plans for next year. Without the use of our crane, it will be too expensive to finish the work.

Yours Truly,

Jean Friendly
(Mrs. Alfred Friendly)

A handwritten signature in cursive script that reads "Jean Friendly".
