Dear prof. Yman,

I am a Norwegian archaeologist, who specializes in Roman period private portraiture in Eastern Mediterranean (I am writing my Habilitation thesis on this subject). I am also a holder of the Turkish State Research Scholarship, and as such I have been appointed to the Ankara University. However, Istanbul, and a meeting with you has been always standing high on my list of wishes. After a conversation with prof. Bahi Ögün, who advises me here in Ankara, we decided, that it will be wiser to address myself directly to you.

I would like to ask you, when it will be suitable for me to come to Istanbul and to speak with you? Any time in April-May will be perfect to me.

I have, however, one more trouble: could

you, please, help me in finding a place to stay in Istanbul (Research fellows home, student home, etc) as I am totally stranger in Turkey, and do not speak Turkish at all.

At the moment I am waiting for the Research permit, as owing to a series of mistakes, it has not been prepared before my coming.

I hope you can answer me soon.

Sincerely Yours

Olona Shupinska-Lövset

My address in Ankara is:
