Dear Hale, that was really a surprising visit, when you could come. I have been very happy and I wish you all the best for the new year. I hope that we will never again be at war with each other, because there will be no peace between us, until there is a "classical Mediterranean". We must make it, so that it is done, but not! But Troy? I would like to do it once again, to see if Helena is still there. I would like to see her again, to see if she is still there. You can come to the Bodensee, too! Dr. Deinhardt, Mann u. Frau, my very best regards.
