

Antalya, 24 September 1980

Dear Natalie

I recieved your letter here very late, I hope that my answer will arrive you early enough. Thank you very much for your formal letter to invite me to be the guest of the University of Rhode Island and the Rhode Island Society of the American Society of the American Institute of Archaeology as a speaker in Rhode Island.

I will give a lecture about "the Agora in ~eleukeia in Pamphylia" in the Institute for Advanced Study in Princeton. It will be convenient for me to give the same lecture also in Rhode Island. My English is not so good to give a lecture, therefor I must let it to traslate. The other Problem is to take so many slides for a secound lecture with me all over on my long trip. Du you know somebody who can translate my lecture from Germany in English?

I can not give an exact date for my lecture in Rhode Island now, than I dont know the date of my princeton lecture, but the first three weeks are good for me too.

Our work in Perge is going very well. We have allredy 6 Statues. We are working in the ~~ss~~ south Bad of the city. I dont know how long we can stay here. It is better when you write me to Istanbul: Ehram Yokusu No 3 Bebek-Istanbul

With my loves
yours
